Andalusia Road repairs begin Sept. 13

DIXON – The Illinois Department of Transportation announces today that weather permitting, construction on Andalusia Road from Illinois 92 (Centennial Expressway) in Rock Island to US 67 in Milan will begin on Monday, Sept. 13.

The project will include patching, milling and resurfacing the 2.3-mile section of Andalusia Road. Valley Construction of Rock Island is the contractor of the \$1.1 million project, which is anticipated to be completed in mid-November.

Motorists can expect delays and should allow extra time for trips through this area and be prepared for slow and stopped traffic. To avoid the work area, when feasible, use of alternate routes should be considered. Drivers are urged to pay close attention to changed conditions and signs in the work zones, obey the posted speed limits, refrain from using mobile devices and be alert for workers and equipment.

Over the next six years, IDOT is planning to improve more than 3,535 miles of highway and 9 million square feet of bridge deck as part of the Rebuild Illinois capital program, which is investing \$33.2 billion into all modes of transportation. Accomplishments through Year Two included approximately \$5.2 billion of improvements statewide on 3,020 miles of highway, 270 bridges and 428 additional safety improvements.
